

SPECIAL PAPER

Investigations in foreign countries: methods and applications.

1972. No 1. Documentation of field geological investigations. Prep. and transl.: Végh, Sándor. Bp. 1972. 15, 1 p.
1974. No 1. Recherches d'eaux souterraines des spécialistes hongrois dans un pays semiaride tropical. /Républ. du Mali, Afrique de l'Ouest, 1962-1972. Par: Láng, Gábor F. Bp. 1974. 51, 1 p.
- No 2. Guidelines for engineering - geological mapping on the scale of 1:10.000. /Methods of the engineering geological survey developed by the Hungarian Geological Institute. Comp.: Guoth, Péter. Bp. 1974. 47, 1 p.
1983. No 1. Geological mapping and prospecting in North Kerulen territory, Mongolian People's Republic /International Geological Expedition 1976-1980./ Comp.: Pentelényi, László, Síkhegyi, Ferenc etc. Bp. 1983. 59, 3 p.
- No 2. The quantitative methods of palaeogeographical reconstruction. (Methodological guidelines for the IUGS - RDP Project Neogene palaeogeographical maps of Central and Eastern Europe.). By: Hámor, Géza. Bp. 1983. 70, 1 p. 4 t.
1988. No 1. Computerized forecast of laterite - bauxites of plateau and peneplain type. A complex computer - enhanced forecast method for preliminary assessment of the ore grade and resources of laterite - bauxites that may be expected to occur on prospective plateaus and peneplains. By: Szabó, Elemér. Bp. 1988. 112, 2 p.
1989. No 1. A bauxite geological model of tropical oceanic island Arcs. By: Korpás, László. Bp. 1989. 21, 1 p.
1990. No 1. The history of accumulation of the Halimba bauxite (W. Hungary) on the basis of its lithological and sedimentological features. By: Juhász, Erika. Bp. 1990. 117 p.
